

## Logistical Support Unit 1386

One piece of valuable equipment in our fleet is our Logistical Support Unit 1386. This 8' X 10' enclosed single axle trailer, was purchased from Southern Bell Trailer Sales in the spring of 2008 and has proven to be money well spent. The Woodville Volunteer Fire Department provides several public displays as well as standby first aid and fire suppression at several annual events.

Just some of the events are, the Woodville Baptist Church Fall Carnival, the Woodville Founders Day Celebration, the Leon County Volunteer Fire Truck Roundup and our biggest The Battle of Natural Bridge Reenactment.

Our Logistical Support Unit contains the following equipment: (2) pop up shade shelters, folding tables and chairs, (2) 160-quart ice chests, (2) 10-gallon water kegs, (1) basic first aid kit and an AED along with numerous public relations supplies. This unit is stored at the fire station on Oakridge Road.
